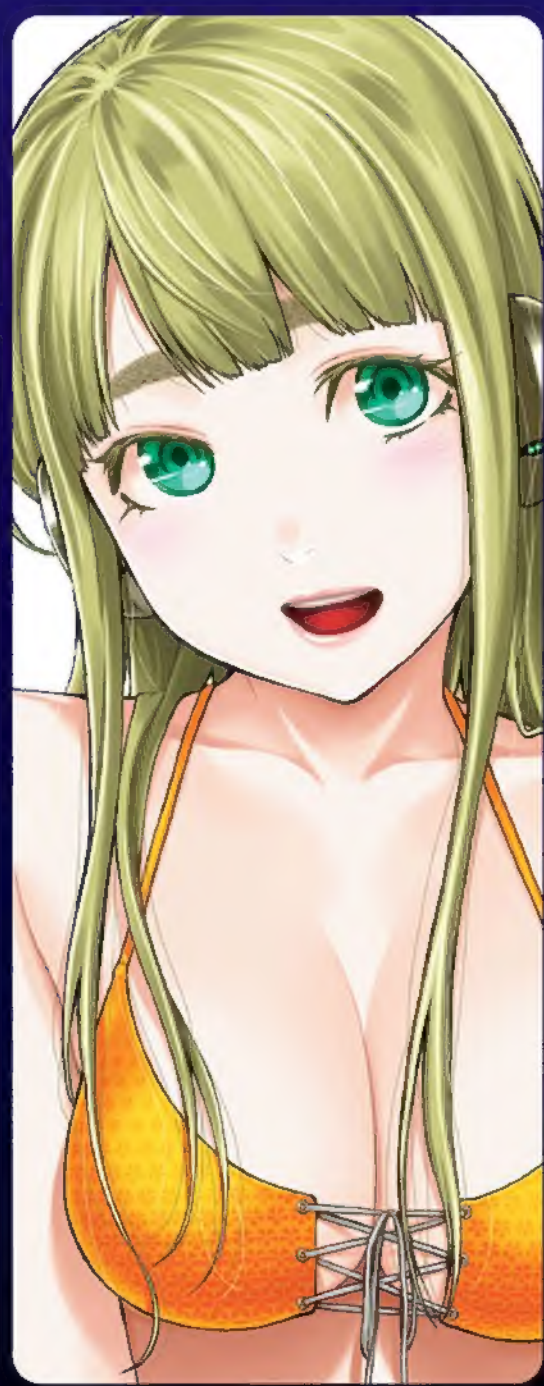
Yoshitake Sakura

As perverted as they come, Yoshitake is faithful to his desires. He's going out with Haruka, but his first time is going to be with Lune! Well, that's the promise he made, so he's sticking to keeping his virginity.

Lune

Lune is from the planet Supopopon. She's been sent to Earth to save her planet from extinction by passive males and a falling birthrate. Lune's requirement is that she be impregnated by a virgin with an insane sex drive, but when she becomes too shy, she reverts to her original form. Thus, she's having a difficult time.

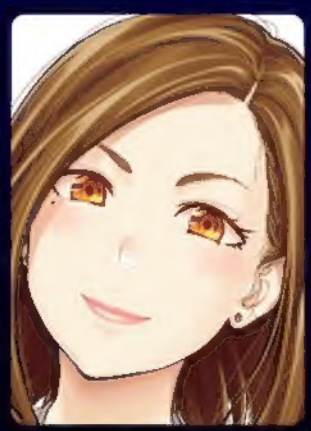


Haruka Yuizono

Yoshitake's kouhai at work and current girlfriend. She accepts the promise Yoshitake has made with Lune, and currently finds herself in a strange love triangle.

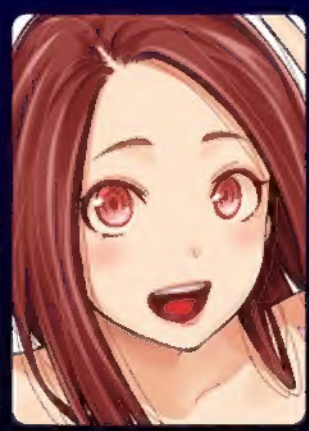
Levelane

Lune's younger sister. Views Yoshitake as the enemy because she loves her oneechan so much.



Mika Kimijima

Yoshitake's senpai at work, who went on a date with him once, pre-makeover...(He doesn't remember the date.)



Kino Kadokura

The ghost currently haunting the home everyone shares. She can possess other humans. Has a voyeur fetish.

READING DIRECTIONS

This book reads from ***right to left***, Japanese style. If this is your first time reading manga, you start reading from the top right panel on each page and take it from there. If you get lost, just follow the numbered diagram here. It may seem backwards at first, but you'll get the hang of it! Have fun!!
